# ABOUT UNOCROWN TRADING

## ❖ INTRODUCTION

- It is our pleasure to introduce UNO CROWN as one of the promising service providers to meet the need of our client for Trading, Maintenance and Contracting Services
- UNO CROWN was established with a motive to serve MEP contracting companies of Qatar as per Local standards and regulations with an objective of providing world class customer service in Trading and Technical Services to our Clients.
- UNO CROWN is equipped by quality resource along with association of some of the high-end partners from around the globe to cater the requirement of our clients.
- We have an excellent technical & services backup from our associate companies in UAE who is been established in the similar businesses for many years. Many of our Engineers have been trained in Europe/USA by our Principals, our Workshop/Test Facilities are fully equipped with modern equipment to ensure high standard of services to our clients.
- We also locally stock substantial quantity of Materials/Instruments related to Fire & Gas detection, Fire Fighting and Safety.
- UNO CROWN maintains a close working relationship with its customers enabling to cater their needs by communicating and close follow ups, with instant Technical Solutions. Our aim is to gain the trust and goodwill of our clients to reach the heights.
- We understand that our reputation can be obtained only by dedicated Service backed by the legacy of our quality products that are installed.
- Our well Qualified Engineers from Dubai team are glad to attend sites to offer technical advice on how to attain the most effective solution reducing on site works if necessary.
